

REMARKS

Claims 1-3 and 5-7 are pending in the application. The Examiner has rejection claims 1-3, and 5-7 under 35 U.S.C. §102(e) as being anticipated by Wu (US 2005/0030714). Applicant respectfully traverses the rejection.

Wu and the current application are filed on the same day, April 21, 2004. Wu and the inventor of this present application are working for the same corporation. The priority filing date of Wu's application was mistakenly assigned to a Japan application filing date for August 6, 2003 by USPTO. Wu already formally submitted a request to USPTO to correct this priority error.

With respect to the rejection under 35 U.S.C. §102(e) by Wu, because both applications were filed on the same date, Applicant respectfully disagrees that Wu's application can be referenced as a prior art. Although Wu and the present application share same drawings, nevertheless, the present application's claims emphasize different aspects from Wu's.

Respectfully submitted,

Yin-Hung Chen
